

SNUGTOP®

The Perfect Fit

ELIMINATE THE CONFUSION WHEN BUYING YOUR NEXT TRUCK CAP!

With so many contradicting claims made today about pickup tops and many manufacturers claiming to be the first, the best or the leader in the industry, it is difficult to know what to purchase. Check out the facts. Furthermore, some shell manufacturers or their distributors often misleadingly refer to their products as SNUGTOPS, SNUGS or something similar. The intent is clear, but you should not be fooled. THERE IS ONLY ONE SNUGTOP.

HERE'S WHY SNUGTOP® IS THE INDUSTRY LEADER:

- Forty years of uncompromising quality and state-of-the-art manufacturing technology has resulted in products which are designed and engineered years ahead of their time.
- SNUGTOP has withstood the test of time. Hundreds of thousands of SNUGTOP caps are on the road today—only because they are the *best*.
- Our patented and exclusive SNUGTOP features and designs make a world of difference. Not only did we invent the popular “Cab-Hi” and award-winning “Top Gun” designs, but we are constantly adding more “Firsts” than any other cap manufacturer.
- SNUGTOP caps say a lot about the people who put them on their truck. They may not be for everyone, only for those who demand unsurpassed performance, styling and dependability they can count on.
- SNUGTOP caps are tough and give you top performance on and off the road. That's why we are confident enough to back our products with one of the best warranties in the industry—a lifetime warranty on the structure of the shell. And a lifetime warranty on the painted surface against fading.

Examine the SNUGTOP “VALUE ADDED PACKAGE” and you'll understand why it makes sense to go with the leader. Don't compromise your standards with anything less than the best!
