- Bedrug heavy-duty carpeting for pickup beds

Exclusive Mounting System Provides Fast, Easy No-Holes Lid Installations

SNUGrip

Front bracket (top) and rear bracket (left) clamp to rail, eliminating need to drill holes

Only SNUGTOP offers this unique, new low profile mounting system for attaching tonneau covers to truck beds. Heavy-duty aluminum brackets clamp on to bed rails, eliminating the need to drill holes. The rear brackets support the struts that hold the lid open. The SnugGrip System also facilitates transferring the lid to another truck. A perfect example of industry-leading technology from SNUGTOP.
